

# TEACHER PROFESSIONAL DEVELOPMENT

## Introducing the Teacher Professional Development team

### Why is teacher professional development important?

It's simple – teachers are invaluable to the learning process. Continued personal and professional development has a huge impact on teaching practice and student outcomes. That's why it's so important for us at Macmillan Education and a part of everything we do!

### So what's new for teachers in 2017?

A lot! The Teacher Professional Development team have been busy working on a number of new projects to support how teachers learn both formally and informally. Through our partnership with NILE, we're now able to offer our teachers accredited training courses, alongside our materials, to support them in their professional development. We'll also be developing new training courses with NILE which will be mapped to the Equals Teacher Training and Development Framework (TD Framework).

Read more about the The Equals TD Framework online at [www.macmillanenglish.com/teachers](http://www.macmillanenglish.com/teachers), and look out for the Equals logo next to some of our teacher development titles and products which are aligned to the Framework.

Then there's the new edition of Scott Thornbury's *An A–Z of ELT* being published this year. Even after 10 years, the book remains essential reading for a lot of teachers, so bringing it up-to-date with the latest ELT terms and pedagogies was really important for us.

As well as our regular extensive content we also have a whole lot of brand-new content on *onestopenglish* for 2017.

An interview with the Teacher Professional Development team

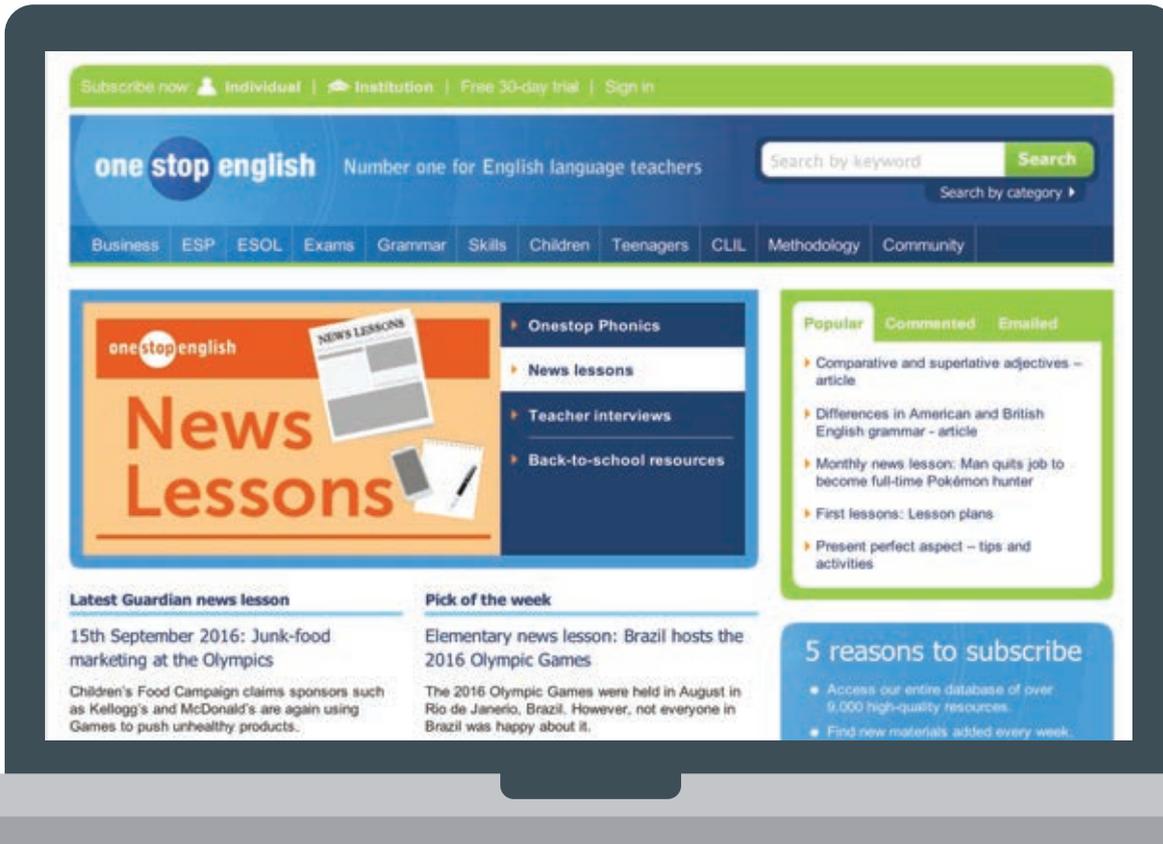

### What else is in the pipeline at Macmillan Education?

We have so many exciting plans for teacher development, too many really to talk about here, but all will be revealed on *Macmillan English*. All teachers need to do is to sign up for our regular emails. We have also joined up with Palgrave to map some of our *Macmillan Books for Teachers* to the Palgrave *Applied Linguistics for the Language Classroom* mini-series, to help teachers follow up their training with further reading.

### Where would you recommend teachers go for professional development resources?

The catalogue is a good place to start! Then of course there is *onestopenglish*, and *Macmillan English*. And of course not forgetting all the free support we continue to offer, including our monthly webinars, annual Macmillan Education Online Conference and Teachers' Days around the world.

**Eaquals**

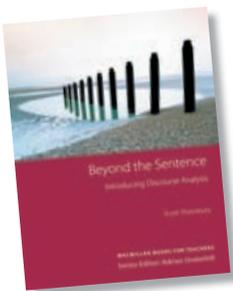

The New A–Z of ELT supports teachers through development phases 1–3 of the Eaquals TD Framework (see p84 for more information)

Almost as soon as the first edition of *An A–Z of ELT* was published, I was already planning updates. Ours is a fast-moving field, after all, with developments in technology and language use often outstripping our capacity to keep up with them. It was partly for that reason I started my blog, *An A–Z of ELT* ([www.scottthornbury.wordpress.com](http://www.scottthornbury.wordpress.com)). In the ten years since the first edition of *An A–Z of ELT*, the following topics have risen to prominence and been subjects of blog posts: the linguistic landscape, gesture, language mobility, and eCoursebooks – all themes that will be tackled in this new edition, along with older topics that will be revisited in the light of developments in, among other things, corpus linguistics and neurobiology.
