# Online Practice for Skills, Language and Work

Support your students' learning step by step

Do your students need targeted extra practice? Don't have enough time in class? Want something you can track, and also feel confident that your students can study effectively on their own?

### Read more about our online practice courses.

Each course focuses on specific areas for development: skills, grammar and vocabulary, or work. Following a modular structure, the courses are an ideal companion to any Adult English course, and give students plenty of support for following the materials independently.

- **Media-rich** – motivate your students with compelling, dynamic, visual content, including videos, animated presentations, interactive info-graphics and striking photography.
- **Step-by-step sequenced activities** – modules engage students' interest, then help them explore a topic or skill in depth, next practise what they have learned and finish by reflecting on their learning.
- **Student support** – students can study independently with a wide range of support materials: Cultural glossaries, Language models, Wordlists, Grammar and Vocabulary Reference, hints and tips, automatic marking, instant feedback.
- **Aligned to the CEFR** – give your students practice at the level that's right for them, with self-check 'Can-do' statements at the end of each module.
- **Measurable** – monitor your students' progress with a wide range of management tools, including a Gradebook and User Progress statistics.
- **Adaptable** – create your own new content to meet the needs of your students, including your own speaking and writing tasks, tests, discussions and live chat. Upload videos, audio or PowerPoint® presentations.
