OUR MISSION

Dear Educator,

The world is an incredible place that needs no embellishment or substitutes. As is, it inspires curiosity and motivates learning. At National Geographic Learning, we want to reflect it as accurately as we can through content that is authentic, compelling, fascinating and often amazing.

In our learning materials, we focus on authentic global content that teaches English and introduces learners to aspects of the world that they have not yet experienced. We believe that in this century global knowledge is an essential skill, and you can't understand the world if you don't experience it. We want learners to experience it through our materials.

We hope to give students reasons to communicate, and the tools to do so effectively. We want each learner to find her or his own voice in English, so they can use it to successfully navigate this incredible world, in whatever goals they have – work, study, or play.

From kindergarten to university, you'll find new and exciting materials throughout this catalog. We look forward to collaborating with you.

"Perspectives can transform the classroom into the real world, where the teacher and students truly engage in language learning. With a wide variety of visual pictures and accessible resources, the textbook provides real settings that students can actually become real English users, not just English learners."

Nobuya Kitajima, Keio Senior High School, Japan

Review from elGazette

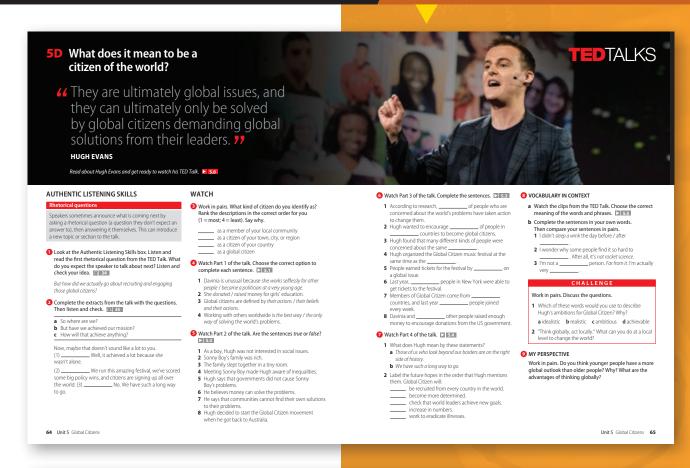

Book of the Month (February 2018)

Perspectives is a new series with an innovative approach: every unit explores one idea from different angles. For example, the unit on food includes cooking in schools, Filipino street food and a TED talk on becoming a weekday vegetarian. This approach works. It encourages students to evaluate new information, develop critical thinking and acquire the necessary confidence to express their own ideas.

We wanted to take learners on a journey, discovering and celebrating the world — its peoples, their customs and ideas — in all its rich diversity. But we needed to 'bring it home,' to make the issues more relatable, so as to maximize the opportunity for learners to express themselves meaningfully in English. That, for me, is the success of this edition.

In the second edition we've really expanded the range of videos so there are new interviews, documentaries, infographics, and even short feature films. And the videos come from such creative people, so it really inspires you when you are writing the book.

It's been hugely satisfying to produce the new edition with user feedback from all over the world in mind. This edition gets the balance between the students' needs and the topic and language accessibility just right, I believe. I especially like the renewed focus on practice activities and opportunities for production that bring the focus to the individual student and their own context.

ESU Judge

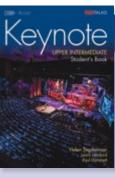

The mission of the English Speaking Union is to help people around the world discover their voice in English. More than ever, the times call for communication - for people everywhere to share their points of view and to talk about ideas. The ESU has recognised Keynote as a great resource for people who want to engage with ideas and communicate about them. It's a tremendous honour to be recognised as being on the side of discussion, communication and the exchange of ideas, and a real privilege to help people succeed at that. They've given us the award because they see Keynote as a powerful teaching tool. That's an idea worth spreading.
