Progress Tests and Extra Practice

The course allows you to easily incorporate digital learning, with assessment and extra practice materials delivered through the Cambridge Learning Management System.

There is an online Unit Progress Test for every unit of the course. These focus on the core grammar, vocabulary and functional language from the unit.

Students are directed to personalised extra practice, according to their score. These practice activities are targeted so that each learner focuses on what they really need and the areas that will benefit them most.

Competency Tests

There are also skills-based mid-course and end-of-course competency tests, offering unrivalled validity and reliability.

After the mid-course and end-of-course online tests, learners are provided with a unique CEFR report which reliably benchmarks them against the relevant CEFR level – and provides clear evidence of progress made during the course.

BEGINNER TO INTERMEDIATE

90–120 teaching hours

Touchstone, together with *Viewpoint*, is a six-level English program based on research from the Cambridge English Corpus. It presents natural language in authentic contexts.

- Corpus-informed language – Extensive corpus research ensures that the language taught is the language people really use.
- Conversation strategies – Students learn the language and skills to interact with fluency and confidence.
- Inductive learning – Students are encouraged to work out grammatical structures and English usage for themselves, making them more likely to remember what they have learned.
- Common errors – *Touchstone* incorporates unique research into the Cambridge Learner Corpus which identifies the most typical learner errors. These are highlighted in 'Common error' panels to help avoid them becoming entrenched.

Jack C. Richards and David Bohlke

BEGINNING TO INTERMEDIATE

90–120 teaching hours per level

Four Corners combines effective communicative methodology, a clear design, and a practical “Can-do” approach to give your students the language and confidence they need to use English accurately and fluently.

The program was informed by the Common European Framework of Reference (CEFR) and is carefully structured to develop students’ communicative competence through four connected strands within each unit:

- Accuracy: drawn from program vocabulary and grammar activities.
- Functional Language: focusing on practical functional speaking tasks.
- Skills: using language across the modalities of speaking, listening, reading and writing.

face2face

Second edition

Chris Redston and Gillie Cunningham

COMPLETE BEGINNER TO ADVANCED

Starter: 60 to 90 teaching hours

Elementary to Advanced: 80 to 120 teaching hours

face2face Second edition is the flexible, easy-to-teach course for busy teachers who want to get their learners to communicate quickly and with confidence. With engaging topics, additional teacher support materials, and a focus on speaking and listening, *face2face* Second edition will get your students talking!

- Unlike other courses, *face2face* Second edition actually teaches students to listen better by drawing their attention to the elements of spoken English that make it so hard for them to understand.
- By giving students time to formulate the ideas and language they want to use before they speak, the course helps to build both spoken fluency and accuracy.
- 'Help with...' sections cover listening, speaking, grammar and pronunciation and teach students how English really works; meaning students can apply what they learn more readily and with more confidence outside the classroom.
- The new video-based 'Real World' lessons included in every unit, give students the practical, day-to-day language they will need in their lives.
- *face2face* Second edition is informed by the Cambridge English Corpus and its vocabulary syllabus has been mapped to the English Vocabulary Profile, meaning students learn the language they really need to know at each CEFR level.

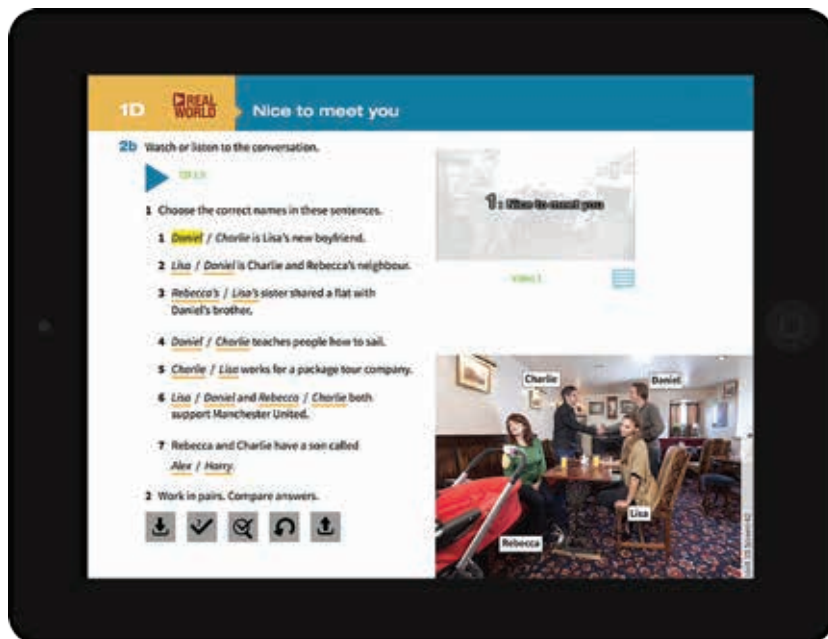

NEW Student's ebooks

- The fully interactive Student's ebooks come complete with embedded audio and 'Real World' video.
